Through the Chairman
of the 40th National Assembly
Mr Georgi Pirinski
and the Bulgarian women deputies

To the participants
in the Second World Congress
of women parliamentarians
Sofia, 19-20 June 2006

Sofia, 19 June 2006

Dear Madam,

The DEN Association and the Tchoveshtina Foundation have the pleasure to welcome you in the beautiful and hospitable Bulgaria.

In view of the aims of your meeting at the National Palace of Culture, we take the chance to present you 3 modest souvenirs illustrating the solutions of 2 of the greatest problems of modern civilisation:

- 1. Foods for children and adults not meeting the world standards, and a lacking system for prompt and efficacious control** (in the 21st century – the century of information society !?). This circumstance has led to making dirty money amounting to more than \$1 billion a day through production and sales using corrupted transcontinental networks.
- 2. Electromagnetic and mental contamination of the atmosphere, air, and water** that within 15 years has led to an increase of the number of children born with congenital defects from 500 thousand to 1,500 thousand a year as well as to a decrease of the population of wild animals and birds.

Souvenir 1: Laser-engraved icon upon wood. It illustrates the laser master CD/DVD technology transferred to any material; this technology forms the basis of the offered problem solutions.

Souvenir 2: CD-ROM clarifying specific solutions presented to the UN in September 2005 and at the CEFOOD Congress in May 2006. The technology has won a gold medal in Strasbourg 2005, France/EU.

Souvenir 3: DVD “Perpericon – the Sanctuary of Orpheus” with built-in PV music. (Please increase the sound volume to sense the distressing effect.) It presents a part of the Orphean mysteries that can help solving Problem 2 in spite of the unavoidably increasing use of mobile phones.

Please be so kind, through your legislative initiatives and involvement in the propaganda of the marvelous FP7–Women Science subprogram of the EU, to support the development and introduction of the presented technologies. These are based on unique principles for invisible recording of information defined by Orpheus, Hermes, Lao Tze, and also in all Holy Scriptures; this is evident from the grant we received at a forum of high rank similar to yours.

Respectfully Yours,

Dipl. Eng. Jivko Jeleu
chairman of the Board of Managers
of the **DEN Association** and
manager of KEIT Ltd.

Prof Dr. V. Orbetzova, DMSci
president of the **Tchoveshtina Foundation**
